

# Prof. Dr. Yoichiro Kuninobu

## Professor

Institute for Materials Chemistry and Engineering  
Kyushu University

## Education

- 1995-1999 **Undergraduate Student**  
Department of Chemistry, The University of Tokyo, Japan
- 1999-2003 **Graduate Student**  
Division of Chemistry, The University of Tokyo, Japan

## Career

- 2003-2012 **Assistant Professor**  
Division of Chemistry and Biochemistry, Okayama University, Japan
- 2012-2017 **Associate Professor & ERATO Project Group Leader**  
Graduate School of Pharmaceutical Sciences, The University of Tokyo, Japan
- 2015 **Visiting Professor** (Münster University, Germany)
- 2017-present **Professor**  
Institute for Materials Chemistry and Engineering, Kyushu University, Japan

## Research Interests

Synthetic Organic Chemistry, Organometallic Chemistry, Structural Organic Chemistry,  
Organic Materials Chemistry

## Awards

1. Meiji Seika Award in Synthetic Organic Chemistry, Japan (2006)
2. Science and Technology Award in Okayama Foundation of Science and Technology (2007)
3. OMCOS 14 Poster Award (2007)
4. Incentive Award in Tyugoku-Shikoku Branch of the Society of Synthetic Organic Chemistry, Japan (2007)
5. 22th Lectureship award for young chemists at the 88th annual meeting of the Chemical Society of Japan (2008)
6. BCSJ Award (2008)
7. Incentive Award for Young Top Researcher in Okayama University (2009)
8. Banyu Chemist Award (BCA 2010) (2010)
9. The Chemical Society of Japan Award for Young Chemists (2011)
10. Thieme Chemistry Journal Award 2012 (2011)
11. The Young Scientists' Prize, The Commendation for Science and Technology by the Minister of Education, Culture, Sports, Science and Technology (2012)
12. JST-ERATO Lectureship Award (2015)
13. 20th The Society of Silicon Chemistry Japan Award for Young Chemists (2015)
14. Albert Nelson Marquis Lifetime Achievement Award (2017)
